

# SIP Trunking - PAYG "Pay As You Go"

We are proud to offer a range of voice services supplied via our carrier partners

## Information About The Service

Breeze Connect offers business grade SIP Trunking voice services. SIP Trunks connect to our 3CX solution along with SIP compatible PABX systems. SIP Trunks provide voice services to connect with traditional PSTN telephone networks.

Our trunks are available in various concurrent call capacities – from a minimum of 2 channels through to 64 channels.

SIP Trunking is a standalone service that is delivered over the customer's existing internet connection.

This connection must be a broadband service capable of handling SIP traffic. We do recommend you conduct a speed and jitter test prior to ordering this service. If you have any queries in relation to the technical requirements please speak to our customer support team prior to ordering the service.

## Minimum Term

The minimum contract term is 1 month. You can cancel this service at any time by emailing [help@breezeconnect.com.au](mailto:help@breezeconnect.com.au)

No cancellation fees apply.

## Minimum Term

No outbound calls are included within the SIP Trunking access fee.

Whilst we have tested our SIP Trunking service with many different PBX systems, we do not provide a free support service to assist you with the configuration. The SIP Trunking access fees are billed in advance and call charges are billed in arrears. Please refer to the Professional Services Schedule listed in the Breeze Connect Configurator. i.e. \$500.00 for pre-configuration and assisted installation.

## Other Information
